

2012 IRMA Webinar Schedule February – April, 2012

IRMA staff conduct periodic webinars to familiarize users with the [IRMA Portal](#) and its capabilities. Most webinars are recorded, which means you can both see and hear the full presentations at your convenience. To see a list of available recordings and links to download them, click [here](#) (NPS only).

All webinars start at 12:00 Noon, Mountain Time, unless otherwise noted, and run up to one hour.

Webinar	Date	Description and Link to Sign up
NPSpecies: introduction and tour for first-time users	February 29	If you're not familiar with NPSpecies, the NPS database of park species information, this webinar will give you an introduction and highlight some of the most commonly-used features. Registration Link: https://www1.gotomeeting.com/register/501663888
IRMA: searching for and downloading data in the portal	March 7	There are many different ways of searching for data in IRMA, and some search logic is still being refined. This webinar will highlight how to search for information, and how to save or download your results. Registration Link: https://www1.gotomeeting.com/register/348793384
NPSpecies: advanced features	March 14	This webinar will cover record editing, and how to set up other users with permission for editing. Registration Link: https://www1.gotomeeting.com/register/230983641
Data Store: introduction and tour for new users	March 21	This webinar will present an overview of the Data Store, and will walk you through the process of creating a record and uploading the associated digital file. Registration Link: https://www1.gotomeeting.com/register/880478896
Data Store: resolving duplicate records	March 28	There are a number of reasons why duplicates exist and will continue to be created in the Data Store. Fortunately, there are options for the prevention, detection and resolution of duplicates. This webinar will detail each of these options, giving you many options to improve the quality of Data Store records. Registration Link: https://www1.gotomeeting.com/register/543364921
Data Store: advanced features: reference collections	April 11	Reference Collections are a powerful way to define and share References that are important to you. This webinar will talk about current and upcoming functionality. Registration Link: https://www1.gotomeeting.com/register/250790688
